Open Letter
Amicus curiae
10th April 2014

Dear Mr. Cameron,

10 *In the name of Her Majesty Queen Elizabeth II, our Sovereign Lady of the Common Law, greeting!*

Courtesy copy of our letter to Prime Minister Benjamin Netanyahu of Israel follows, together with a copy of our letter to Dr. Eric Schmidt of Google.

15 Can we expect a rational Cabinet policy to restart trade in London using the outline given to Dr. Schmidt? The G7 'finance ministers' won't be able to eat breakfast at their meeting in Washington¹, without stealing by fraudulent conversion.

The entire UK corporation and this means the Cabinet Secretary and his MI6/MI5 handlers need to retreat with their ear to the ground like Sir Humphrey Appleby, for the **key** to the problem is not to be found even at the Vatican or anywhere in London/America/Europe.

20 We believe that it can now clearly be seen that the *root of authority* is not in the Crown Temple or MI6 or DVD or CIA or any other bastion of force.

25 We suggest that the spooks who have shut off President Putin's fax (and other U.S. embassy and other fax machines) be asked to turn those on again. MI6 will know who to ask for this. It has been a one world government at that layer for decades. Can MI6 get the bags off the heads of the MH370 passengers and arrange to send them home? The Defence Secretary Rt. Hon. Philip Anthony Hammond's video game addicts² must know exactly where everything is.

30 We suggest that the British Cabinet begin to share these letters and the Truth with their colleagues - in the Cabinet and in both Houses of Parliament and with the *public*. The British Cabinet is pathetic and Rt. Hon. Nick Clegg looks like a fool and this won't help Mr. Boris Johnson, Mayor of London lead the Conservatives to 'victory', or help the Right Honourable First Lord of the Treasury begin a set of real books, or help any of the families who "control" the "Treasury" in any way whatever.

35 We suggest that all bank accounts of major law firms, lawyers, bailiffs and HMRC employees and the Justice Secretary Rt. Hon. Christopher Stephen Grayling's personal accounts **be seized and all "law" personnel can get £100 a week in printed cash to live on³, subject to "means testing" to uncover hidden assets**. Rt. Hon. Christopher Stephen Grayling must show *faith* in his own system by example - his resignation is long overdue.

Or 'they' can back off and apologize in public and start throwing out all mortgage and loan and credit card cases and administrative fines. We suggest that 'they' don't wait for "jungle warfare"⁴. Water cannons and space "gas explosion" *soliton* weapons won't help them and DVD/CIA/MI6 would be quite happy to line them up all at the Tower of London, even as they are already demonstrating by

40 getting rid of middle level 'bankers' who may 'know too much'. Rt. Hon. Kenneth Clarke⁵, Minister without Portfolio, to whom we have written⁶, may be the man to help clean things up. Such a clean up is international in scope, for the debt and administrative plunder affects **all** nations and peoples.

In other words the people "in charge" who are scaring the wits out of the Cabinet are **idiots** who make King Henry VIII look like a pleasant, rational fellow. They and Mr. Nigel Farage MEP can't shear enough sheep quick enough to trade with the French from what they believe is 'their' island fortress.

It is time to speak Truth once again in England, in English. We can imagine Henry Garnet smiling in his 'Catholic' Heaven. Her Majesty The Queen's "English" people don't stop at the borders of England. When Arthur Wellesley, 1st Duke of Wellington defended Lisbon, Portugal from the French, the *Lines of Torres Vedras*⁷ were built without the help or knowledge of the British government. MI6 or the MoD does not defend Britain/England. Neither do European or English *Lords of Money*. The *English* people do.

We suggest that the Cabinet provide a copy of our letters to the Directors and controllers of BBC, The Telegraph, The Guardian, etc. Truth will outlast the 'D-list', actual or informal, even as it outlasted the D-list⁸ maintained by the Popes of the past. Truth does not die when the body dies, nor can it be confined to a select few - this is the 'Good News' of the Gospel and the testimony of history.

55 A society built by DVD/CIA/MI6, with only interest in sordid matters and vengeance must be replaced by a society built on contemplation of Truth. Then the terrible deeds of the past will assume their proper perspective.

Failure of intelligent people, some of whom are 'scientists', to examine the evidence of both ends of an observation - to determine the nature of the observer (inside them) and the observation (data) is their own fault - it is this failure that has brought us all the DVD/CIA/MI6/Mossad/etc., the *Greenbaum*⁹ brutal monster of horrible deeds. When brutes tell intelligent people what to do, civilisation breaks down and fails. Truth is the *nectar of pure intelligence*, also called Soul. That the *pure intelligence of Truth* is accessible is the testimony of sages and saints. Sir Isaac Newton knew his Soul although he dared not write about it, for England and Europe of his day were run by brutes.

65 We are pleased to see that Rt. Hon. Theresa Mary May, Housekeeper of Her Majesty's Commonwealth of Nations and Cardinal Nichols are visiting the Holy See. Who is making the effort to start trading in real contracts? To be *holy* is to be very practical. People must be fed. *Markets must trade*. There are no markets or trade, just fraudulent conversion 'capitalism' in virtual reality computer games.

We do believe that London *could* become a centre for settlement of Real Bills, even as it was so a hundred years ago. Even with computers, living people must trade with each other. 'High frequency trading' never resulted in an extra ear of corn, just a bunch of 'Swiss bankers'.

The situation is akin to the Great London Plague of 1666. The "rich" people who are walking around don't know that they are the walking dead, "*corporate*" bodies. We suggest the entire charade of political theatre be dropped and replaced with a debate on 'UCC mirror reflection'.

75 Kindly forward a copy to Her Majesty The Queen. Give Her Majesty The Queen our love.

Yours faithfully,

Joseph Ray Sundarsson
